

I want this information for California bussineses, I want it separated by Service , location and social media.

I also want awarenes metrics , cost per 1000 views and so on. USA California

Marketing a construction or home services business in California requires higher advertising budgets due to the state's highly competitive digital landscape. Costs for leads and customer acquisition in this region generally run 20% to 30% higher than the national average.^[1]

Platform Awareness Metrics

Social media and search platforms serve different stages of the marketing funnel, resulting in varying costs for brand awareness. While Google search ads capture high-intent buyers, visual platforms like Facebook and TikTok offer highly cost-effective CPM (Cost Per 1,000 Views) rates for broader local awareness.^[2] ^[1]

Platform	Cost per 1,000 Views (CPM)	Average CTR	Cost Per Lead (CPL) Range	Best For
Google (Search/LSA)	\$2.00 - \$5.00 ^[3]	2.9% - 6.3% ^[4] ^[2]	\$70 - \$400 ^[5]	High-intent conversions ^[1]
Facebook	\$7.00 - \$10.00 ^[6]	1.0% - 3.0% ^[1]	\$20 - \$165 ^[4] ^[7]	Volume lead generation ^[1]
Instagram	\$5.00 - \$9.00 ^[3]	1.0% - 2.0% ^[1]	\$30 - \$150 ^[1]	Visual project showcases ^[1]
TikTok	\$10.00 ^[6]	0.8% - 1.5% ^[2]	\$15 - \$50 ^[2]	Broad local awareness ^[2]
Twitter	\$4.00 - \$8.00 ^[3]	0.5% - 1.0% ^[2]	\$40 - \$100 ^[2]	B2B networking

Customer Acquisition by Service

The final Cost Per Customer (CAC) heavily depends on your specific trade's average close rate, which ranges from 10% for large new construction projects to 25% for immediate repair services. High-ticket remodeling and emergency damage restoration command the highest CPL due to fierce competition for relevant keywords on search networks.^[8] ^[4]
